Sauerstoffaduanwendungen.com-Mediathek: Millionen Videos aus dem Netzwerk der „Thriller-Kultur" About IndiaFont IndiaFont is new software for simplifying the way of making artistic calligraphy for Hindi & Marathi Language. IndiaFont is available in 4 languages: Hindi, English, Marathi & Malayalam. You can set the language of IndiaFont from its Preferences tab. It offers two language modes: Hindi & English. The fonts included in IndiaFont are designed to work well with each language and include the necessary ligatures. IndiaFont gives you access to 250+ hand-made fonts that can be imported using its Font-Manager. It also lets you use IndiaFont for digital pen and brush. Features of IndiaFont Binaries of IndiaFont are distributed on CD/DVD and are completely self-installing. You need just a CD or a DVD. This way, the system is portable and can be used on a wide range of platforms like laptops, desktops, netbooks and servers. IndiaFont can be installed in minutes without wasting time by installing the fonts through the font manager. IndiaFont offers several options to customize and control its features. These include: New fonts can be added by using IndiaFont's Text Editor Font of IndiaFont is scalable so that it can be used in proportion with other fonts. IndiaFont is compatible with all installed fonts on the system so that you don't have to search for missing fonts. IndiaFont's Text Editor lets you view all the Unicode text directly and add or delete characters. You can modify the existing characters by moving the character or typing on keyboard. IndiaFont can display text from multiple languages in the same document. You can add a font and choose the language from its preferences or set it up in the font manager. IndiaFont allows you to write in Hindi, Marathi, English & Malayalam. So, you can write text in a different language from the one you are typing or in a different language than the one you are reading. It has a built-in Hindi to English dictionary. IndiaFont uses the same drawing tools as other Adobe applications like Photoshop and Illustrator. You can create text in different fonts, sizes, colors and draw your own shapes. IndiaFont's graphics editor makes drawing easy. It provides standard tools such as Pen, Eraser, Select, Move
